

FirstLine Anti-Microbial Door Mats

FirstLine Anti Microbial Mats are superior anti-microbial floor mats. These entrance mats stop dirt, microbes, and moisture at the door, maintaining the cleanliness and health of your indoor space.

These floor mats are constructed with an anti-microbial compound that is permanently bonded to the carpet at the molecular level. It attracts microbes and destroys them on contact. The compound remains active for the life of the mats and will not create “superbugs”.

FirstLine mats feature an elegant simulated marble design that is visually appealing and also hides dirt and debris. These entry mats come with a 100% Nitrile rubber back with three optional configurations: smooth, carpet grippers and suction (call for details).

These anti-microbial entrance mats are crush-resistant and best suited to high-traffic environments where anti-microbial properties are desired such as medical environments, school lobbies and play areas at malls.

- Permanent anti-microbial agent does not wear off
- 100% Nitrile rubber is chemical resistant
- Elegant simulated marble design
- NFSI "High Traction" certified
- Fully Launderable
