Sub Zero Walk-In Freezer Mats

Sub Zero Walk-In Freezer Mats are designed specifically for use in deep freeze conditions as low as -40 degrees Fahrenheit. The anti-slip features include raised knobs, solid rubber construction, and antimicrobial properties.

Mats are 100% Nitrile rubber which makes them resilient, grease-proof and resistant to cracking or curling. These rubber kitchen floor mats are low profile for use with rolling carts, and reversible for extended service life.

Mats are 3/8" thick and constructed from solid rubber for excellent durability and longevity. These rubber kitchen freezer mats will give years of reliable service in the harshest food service freezer environments.

Item No: FM.KDF
