

DiamondTop Modular Anti Fatigue Runner Mats

DiamondTop Modular Anti Fatigue Runner Mats are industrial anti-fatigue floor mats designed for single station or infinite-length comfort floor mat installations. Single mats are available with molded beveled safety edges on all four sides, and finished custom installations are fully beveled as well, eliminating trip hazards. For custom length configurations, order two end tiles and the required number of center tiles.

These heavy-duty solid rubber anti-fatigue mats feature a diamond deck plate top surface design for superior traction and ease of clean up. The sturdy waffle board bottom design increases worker comfort levels and helps the mats maintain resiliency over their life.

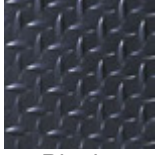

Ideal for use on assembly lines, welding stations, packing tables, order pulling areas, CNC control interface stations, automotive shops, fabrication shops or other industrial and manufacturing settings requiring single mats or custom length.

- Single tiles or interlocking tiles available
- Two sizes available, 28" x 31" and 36" x 31"
- Mats are ½" thick overall
- Waffleboard backing for increased comfort
- Heavy duty, comfortable and long lasting
- Ideal for Wet or dry use, mats wipe clean easily
- Diamond deck plate top surface for superior traction
