

Double Sided Floor Mat Tape

Double Sided Mat Tape holds floor mats and rugs in place on any surface so they don't slip and slide around the floor.

Simply cut off the desired length of double sided tape, peel off the top layer and adhere the tap to the edges of the floor mat. Next, remove the protective backing and press to the exposed side of this carpet tape to floor.

This double sided tape helps hold mats, especially non-gripper mats, on carpeted and hard floor surfaces.

Should the tape be removed, no residue will remain on either the mats or rugs above nor the floor below.

Each roll of tape is 6" wide x 25' long.
