

## Homeplate Disposable Urinal Mats

Homeplate Disposable Urinal Mats help keep bathroom floors from becoming slippery and dangerous by increasing traction and protecting floors underneath urinals. The narrow base of the homeplate design keeps shoes comfortably on the restroom floor and off the floormat.

These urinal floor mats contained an anti-bacterial agent that breaks down urine to reduce odors and promote a healthier restroom environment.

Disposable urinal mats are quicker to dry and more effectively break down urine compared to knock off floor mat competitor's products.

A patented backing honeycomb rubber backing keeps these urinal mats from sliding around the floor. Keeping these floor mats in place not only helps promote bathroom floor safety but also prevents urine from staining and deteriorating the floor below the urinal.

These urinal mats are ADA compliant.

Each disposable urinal mat measures 16-3/4" W x 20-1/2" D and come 12 (dozen) to a case.

Reduce your restroom cleaning costs while protecting bathroom floors and keeping customers happy with the least expensive disposable urinal mats around.
