

## Smooth Marbleized Military Switchboard Mats

Designed to meet strict military standards, Marbleized Mil Switchboard Mats are non-conductive mats rated to 30,000 volts (dielectric), and 7,500 volts (working limit). Mats are 3' wide, with custom lengths available up to 75' long with numerous stock sizes available as well.

The smooth vinyl surface is easy to clean and offers exceptional resistance to ozone emissions and transformer oil commonly found in high-voltage environments. Marbleized Floor Matting is designed primarily for permanent installation by bonding to the existing floor with vinyl-compatible, mastic adhesive.

- Conforms to Military Spec. 15562-G, Type I
- 30,000 Volt dielectric, 7,500 Volt working
- Permanent installation with vinyl-compatible mastic
- Welding thread is available in matching colors
- Easy to clean, ozone and oil resistant
- Available 1/8" thick

**NOTE:** When installing multiple widths of this matting side-by-side, it is critically important to weld all seams to ensure the mat's reliability and consistent insulative properties. We recommend hiring professional flooring installers, as they have experience and the necessary tools and equipment to bond this material to itself and to floor.
