

## ReUsable Sticky Mats

Reusable sticky mats are a revolutionary, high performance tacky mat product that can continue to effectively pull dirt & debris from shoes for years without have to be replaced.

These sticky floor mats have a strong adhesive layer to grab onto the floor below (no frame needed) and a super polymer top surface with a micro-stitch pattern for superior effectiveness and longevity that is also easily cleaned.

The grooves on the surface extend the life of these floor mats and help them remove more contaminants by being able to conform to the surface of the shoe more precisely.

When these reusable sticky mats become saturated, they can easily be cleaned with a mild pH cleaning agent and a squeegee. Once dry, the mats are ready for use.

**There is a two plus (2+) year life expectancy under normal wear conditions with a payback in 9 months.**

These sticky mats are ideal for inside and outside contamination control areas including ISO certified clean rooms and laboratories but these reusable sticky mats are also useful in offices, server rooms or any area needing a clean environment.

These low profile sticky mats are static dissipative.

Custom sticky mats are available. Please call for a quote.
