## SoftStat ESD Anti-Static Mats

SoftStat ESD Anti Static Mats are comfortable esd mats that provide protection to sensitive electronic equipment from electric discharges while offering a comfort, anti-fatigue surface for the standing worker.

SoftStat anti static mats are more durable than comparable blown vinyl sponge mats yet are economically priced to fit any budget.

These esd mats are 3/8" thick and have beveled edges on all sides for added safety.

SoftStat anti-static floor mats have the following resistivities:

 $RTT = 8-9 \times 10^{9} \text{ Ohms}$  RTG of 1-9 x 10<sup>9</sup> Ohms.

To ensure anti static mats work properly, the floor mats must be properly grounded and keep free of debris.

**Note**: SoftStat ESD Anti-Static Mats must be used with a grounding cord for proper functionality. A heel grounder is also strongly recommended. Both items are sold separately.

Item No: FM.SES

Standard Sizes (Approximate)						
Size	Qty. 1	Qty. 2-10	Qty. 11-25	Qty. 26+		
2' x 3'	\$42.88	\$40.76	\$37.68	\$35.52
