

## Wood Chair Floor Mats

Our Wood Chair Mats are an eye-catching alternative to the traditional clear chair mats.

These attractive wood floor mats are constructed of one solid piece of MDF wood composite, similar to Pergo wood flooring & thus are the strongest chair mats in the industry!

The 5/16" thickness prevents dents and dimples and cracks. Beveled edges allow chairs to easily roll on and off these floor mats.

Wood Chair Mats are available in both rectangular shapes as well as traditional shapes with a lip (which is an extension, or tongue on one side of the mat that fits under the desk's leg opening).

Each wood chair mat has traction pads on the underside to protect floors and keep these chair floor mats in place on any surface include carpet and hard floors.

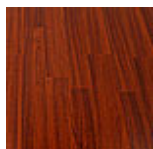

Please note that these wood chair mats are not recommended for use with chairs with hard ball casters or metal casters.

Item No: FM.CMWS
