

## Workstation Chair Mats

Workstation Chair mats have a beaker shape to help provide floor coverage on L-shaped and non-standard sized desks. These chairs mats facilitate movement on carpet while protecting the carpeted floor from damage from the desk chair.

These light bulb shaped mats have cleats on the backside to help keep the floor mat in place on both cut-pile and loop style carpets while moving around in a desk chair. The cleats will not cause damage to the carpet or rug underneath.

Workstation chair mats are produced with a commercial-grade, non-flammable, translucent vinyl composite, which helps prevent these mats from chipping or curling.

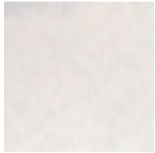

The **LIFETIME WARRANTY** on workstation chair mats covers cracks caused by normal wear and tear. See link below for full warranty.

Custom size/shape chair mats are available and only take a few days to produce - please call us for pricing.
